

WEEK ELEVEN

J309-2111

Social Stories

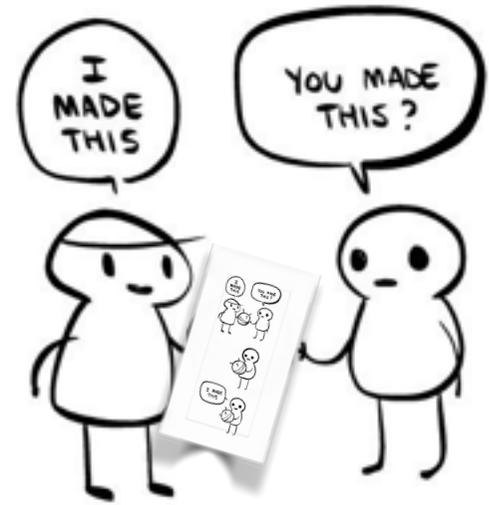

What went well? What were the challenges?

TODAY'S TIMELINE

- Discussion #1 – 15 min
- Law and Ethics – 45 min
- Break – 10 min
- Discussion #2 – 15 min
- Wireframing – 60 min

DISCUSSION

INTELLECTUAL PROPERTY AND ETHICS

First things first...

TINLA

Let's talk about images.

Can you use an image just because it's on the internet?

No.

Can you use an image
because another outlet did?

No.

Does "fair use" mean you really want to use an image?

No.

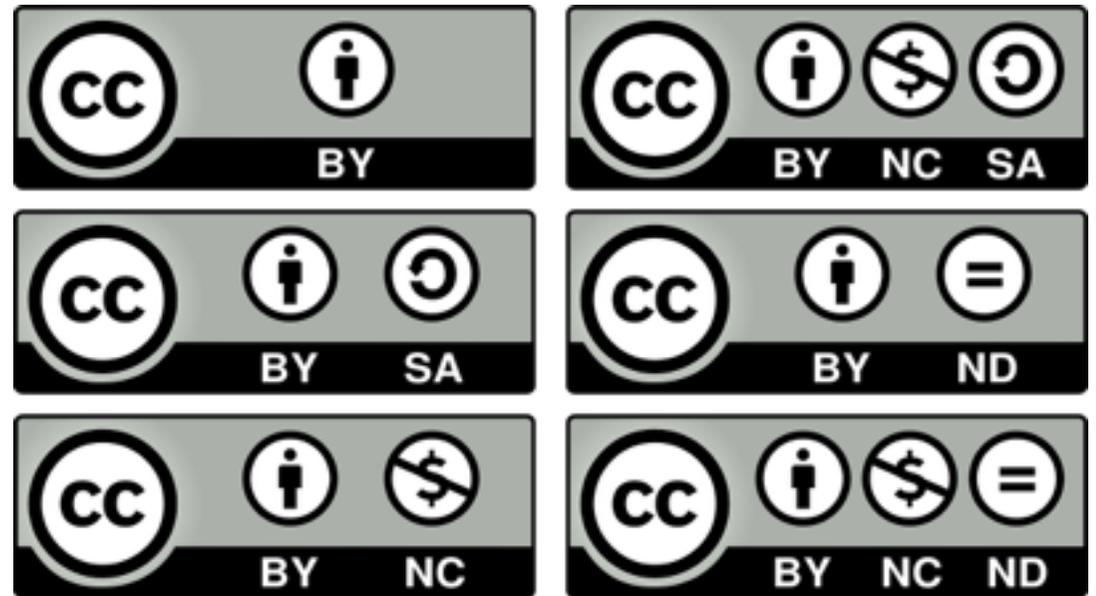

Fair Use.

It's tricky.

But as a general principle, you can use an image (or other work) if the story is **about that particular work**, or if it's **in the public's interest** that you use it.

For more, www.cmsimpact.org/journalism.

Creative Commons

BY = Give Credit

SA = Share Alike

NC = Non-Commercial Use Only

ND = No Derivatives

Government Photos

Still tricky.

But typically U.S. government photos are automatically in the public domain. Look for Flickr pages of government agencies, for example, if you need photos of public figures. Also: Archives.

What else?

- **Embeds** from Twitter, Instagram, Getty. The original creator still owns the copyright, but embeds are within those sites' terms of service.
- **Photographs you took yourself** in a public place.
- **Photographs the copyright holder has given you permission to use.** Be careful about this. A band might give you a photo taken by a professional, but that doesn't mean the pro gave the band permission to pass it along.
- **"Good" stock photos:** Unsplash, Death to Stock Photo, Kaboompics, Pexels.

More on this topic.

<http://training.npr.org/digital/open-copyright-what-does-that-mean-for-me/>

What is defamation?

What is defamation?

- A **publication** to one other than the person defamed;
- A **false statement** of fact;
- That is understood as
 - a. being **about the plaintiff**; and
 - b. tending to **harm the reputation** of plaintiff.
- If the plaintiff is a public figure, he or she must also prove actual malice (negligence for private figures)

On the internet, everything is publication

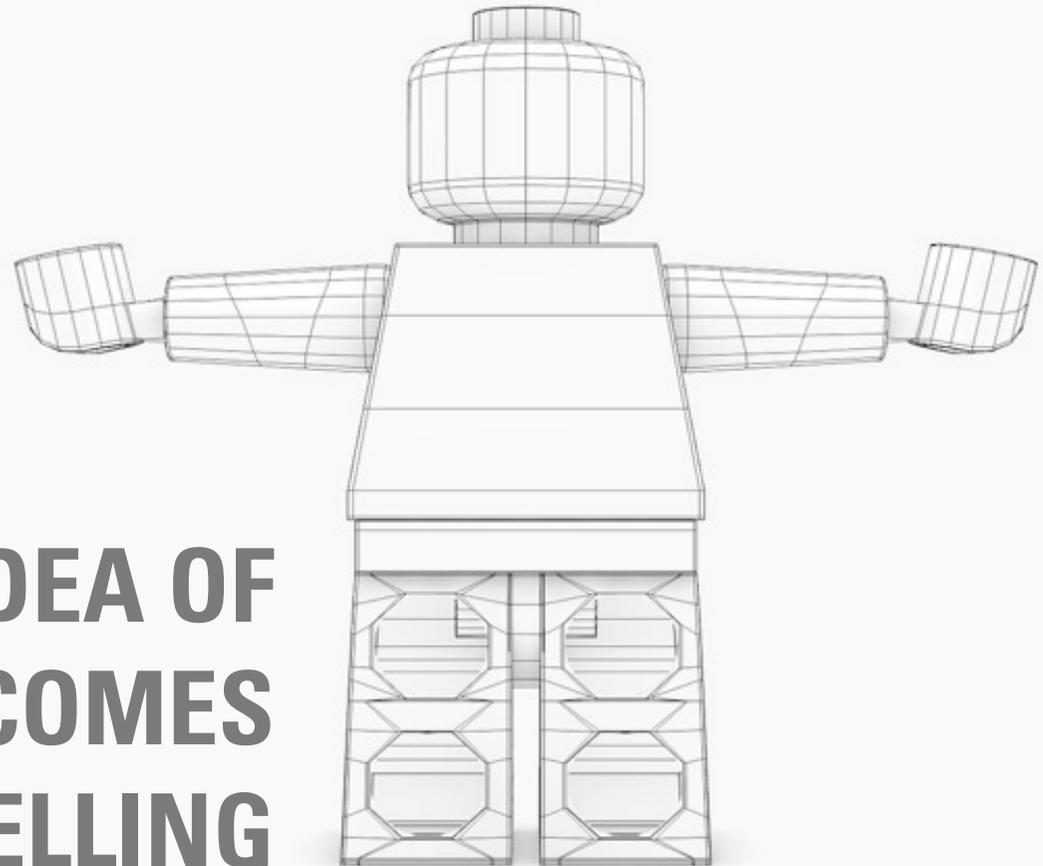

- Posting on a blog = publication
- Posting on Twitter = publication
- Posting on Facebook = publication
- Emailing two people = publication

LET'S TAKE A BREAK

DISCUSSION

WIREFRAMING

**THE IDEA OF
WIREFRAME COMES
FROM 3D MODELLING**

Wikipedia:

“A website wireframe
is a visual guide
that represents
the skeletal framework
of a website”

Nielsen/Norman Group:

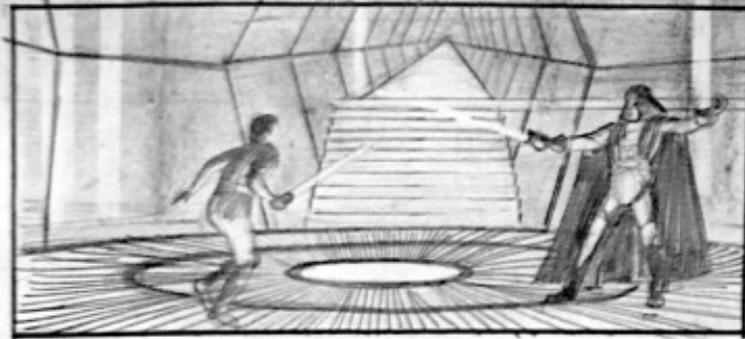

“Wireframing is a low-cost, rapid iterative design technique that offers one of the best methods for gaining design insight early”

Even if wireframes display a single interface/page they are less like photos and more like movie stills

WIREFRAMES AS STORIES

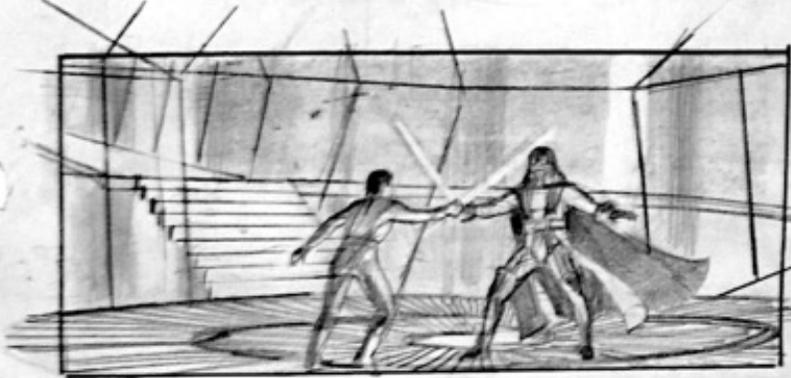

WIREFRAMES AS STORYBOARDS FOR INTERFACES

M.C.S.
LUKE LIGHTS HIS
LAZER SWORD &
MOVES TO ENGAGE

NOTE - NO STEAM
BECAUSE IN A
MOMENT BOTH
LUKE & VADER
RISE ON WIRES
INTO CAMERA. &
IT MAY NEED WE
ROTOSCOPE THEN
OUT.

CAMERA ON CRANE ARM
SWINGS R - L

M.C.S.

THEY ENGAGE
DUKE BACK
CAMERA PUSHES IN
ON VADER

5.391

LUKE IS NOW
CONTROLLED &
FIGHTING WITH
CALMNESS. HE
BACKS ROUND
AND SUDDENLY

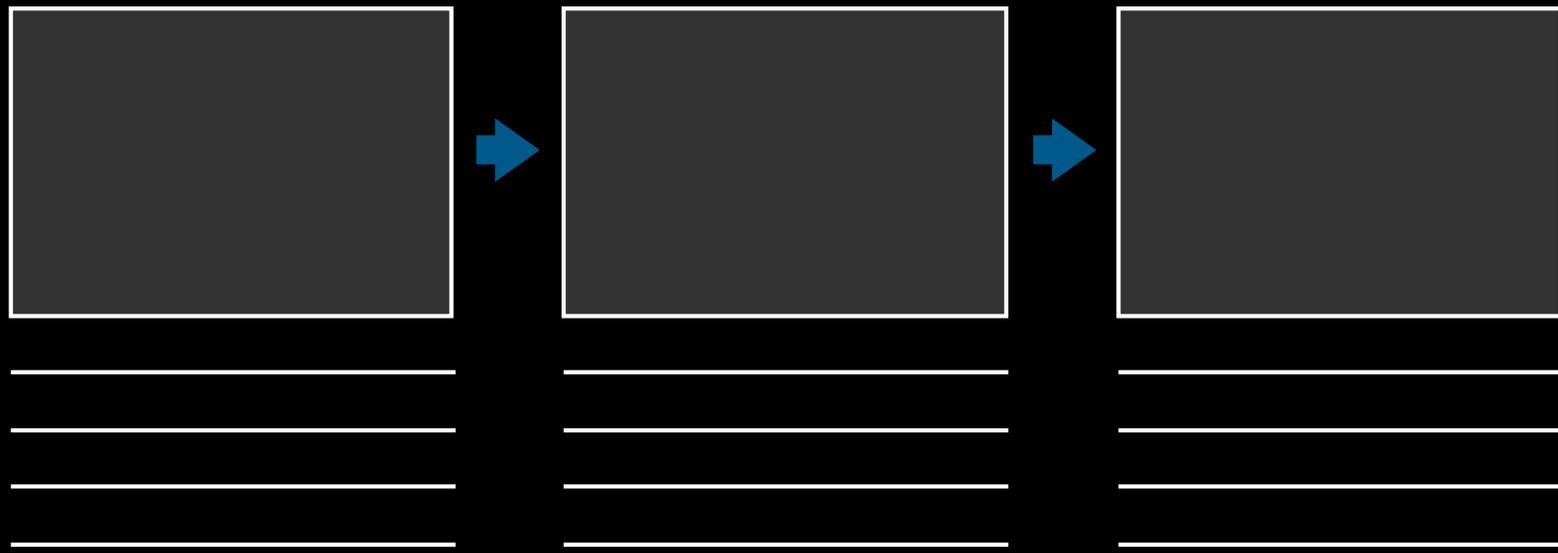

LOW CAMERA

ATTACKS WITH FAST
SWORD PLAY. VADER
BACK TO CAMERA

AT THIS ANGLE LUKE
CAN MAKE FAST MOVES
WITHOUT COMMITTING
ANY EPEE GAFFES.
& WE CAN OPTICALLY
PUT IN A FIREWORK
DISPLAY OF LAZER
BEAM >

VADER BACKS AWAY

DIFFERENT WAYS TO TELL A STORY

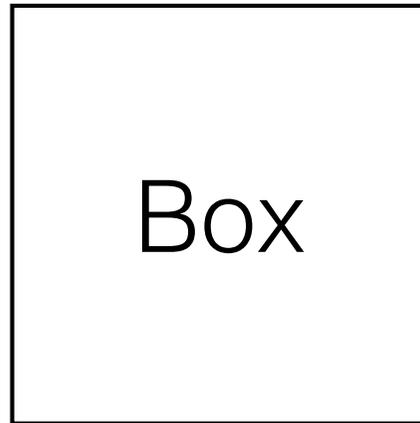

frame by frame, drawings

key frames, textual descriptions

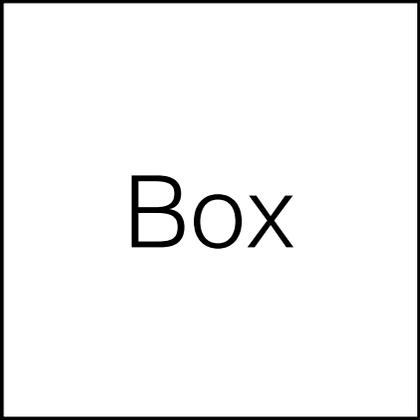

key frames, spoken narrative

Even if the storyboard is not visible
it's still the foundation of wireframes

The minimal visual building block
of a wireframe is the **box**.

Box

Boxes usually contain a **uniform kind of content**, not the individual elements.

However, it's important to choose the right level of breakdown to support the **discussion**.

@protoattinio That's interesting. And sight, it could have been the
foundation of the SeamlessID. :D
Thanks! :)

This high level box view is implicit most of the time, but it's incredibly useful when applied on a number of pages to ensure **consistency** and **reusability**.

TRY WORKING WITH PATTERNS AS
MUCH AS POSSIBLE TO SUPPORT
MEMORY AND LEARNING, MAKING
THE INTERFACE **TRUSTWORTHY**

Let's build a **journey**.
Imagine Twitter's registration process.

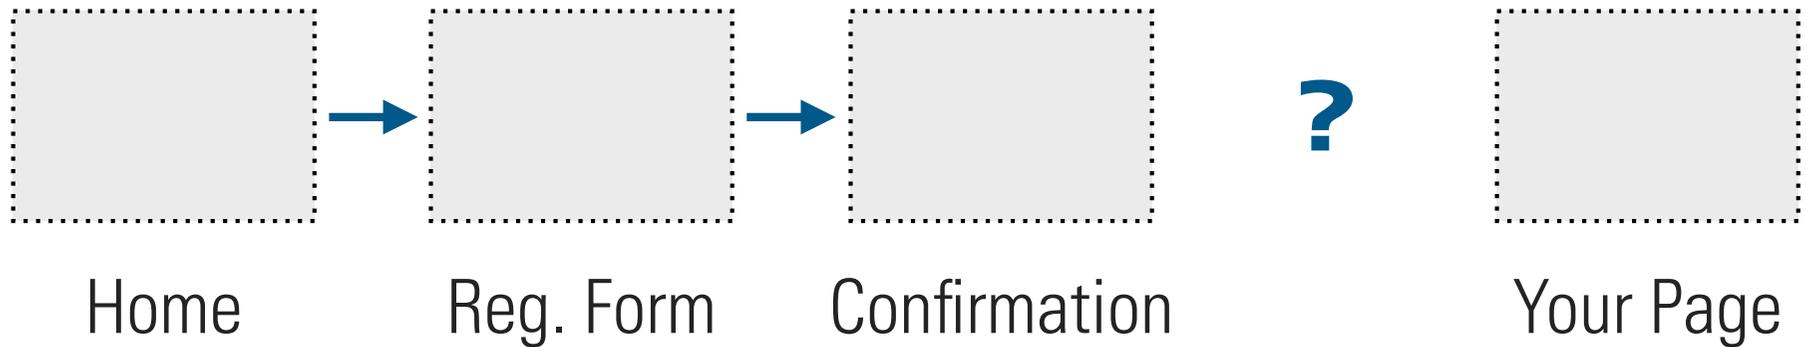

LOGIN PROCESS

The main steps of the journey

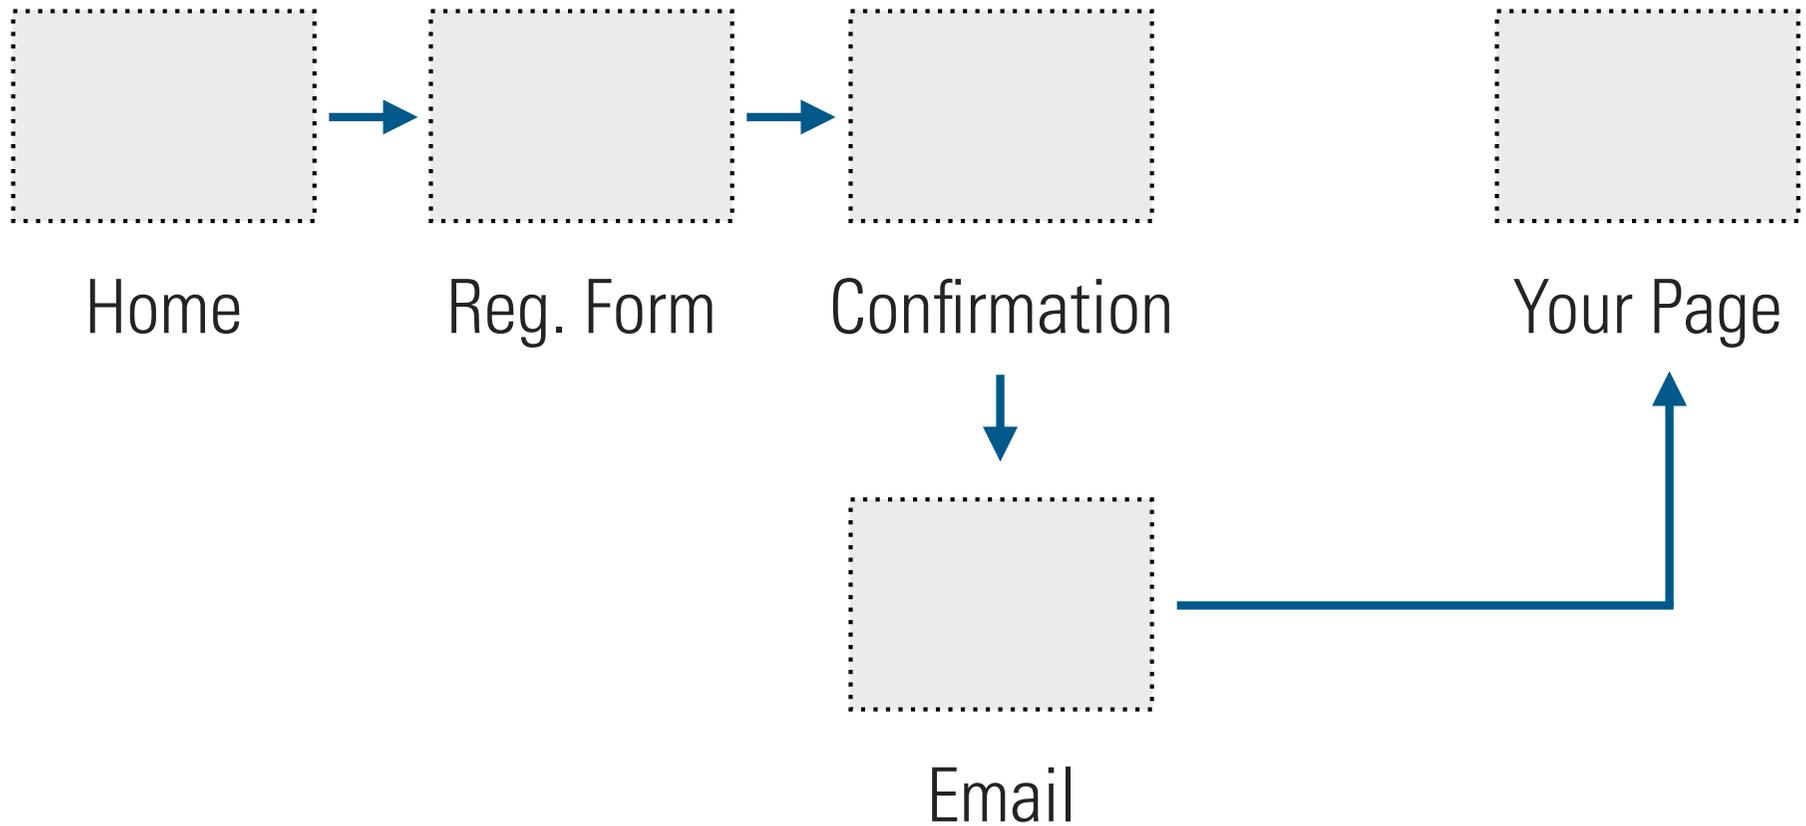

LOGIN PROCESS

How do we guide the user to the value?

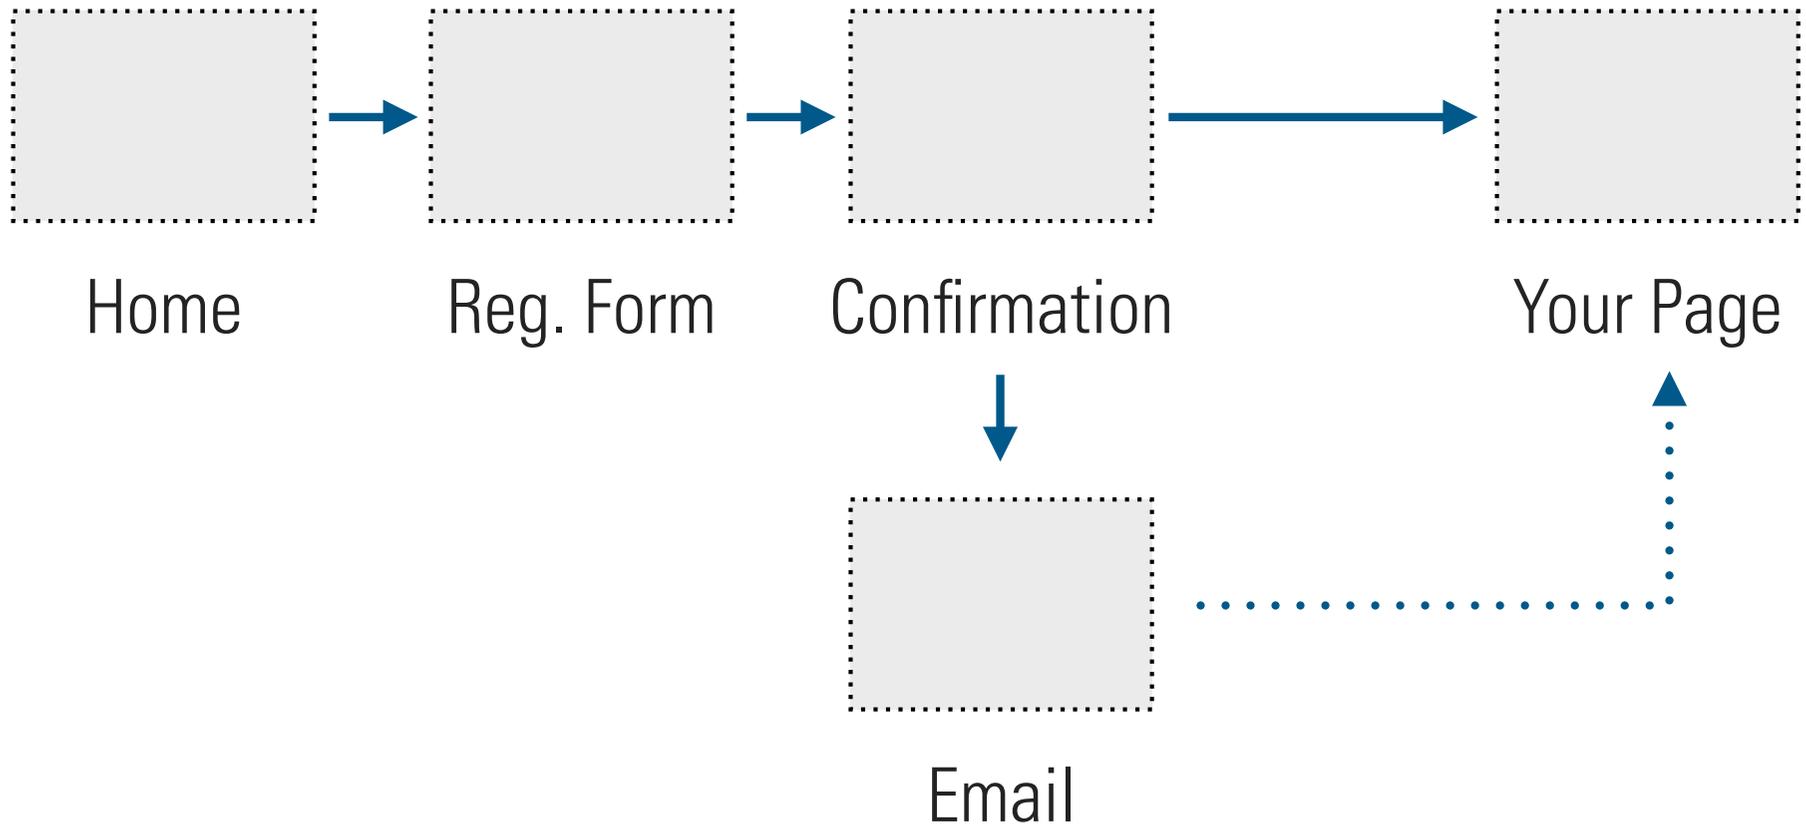

LOGIN PROCESS

An e-mail based approach

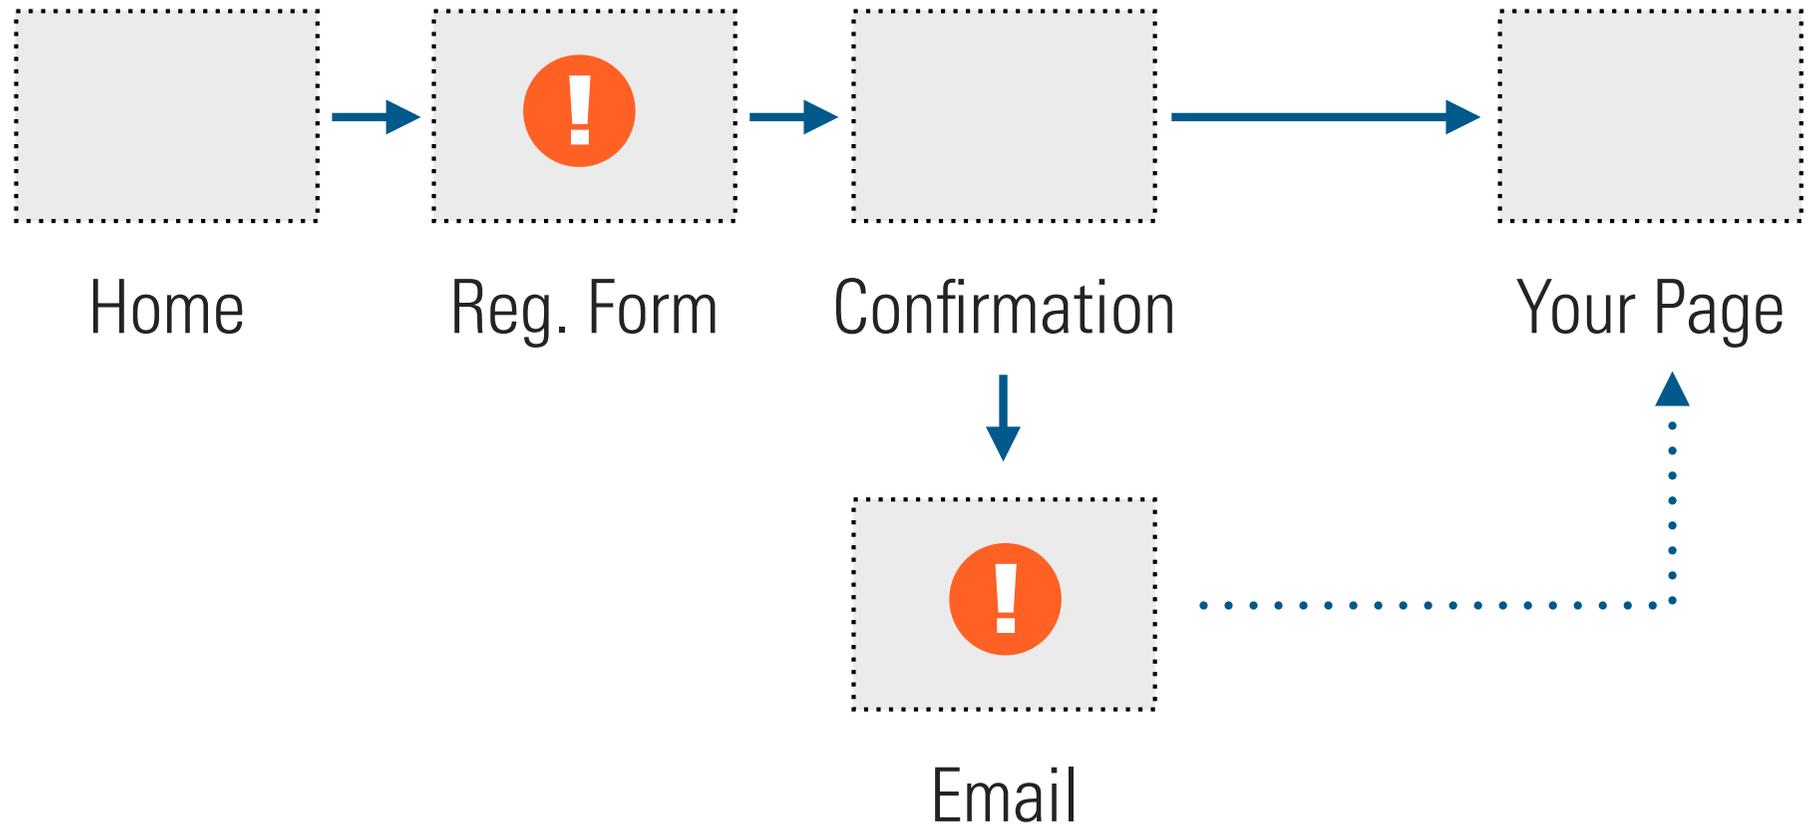

LOGIN PROCESS

A more direct way to engage the user

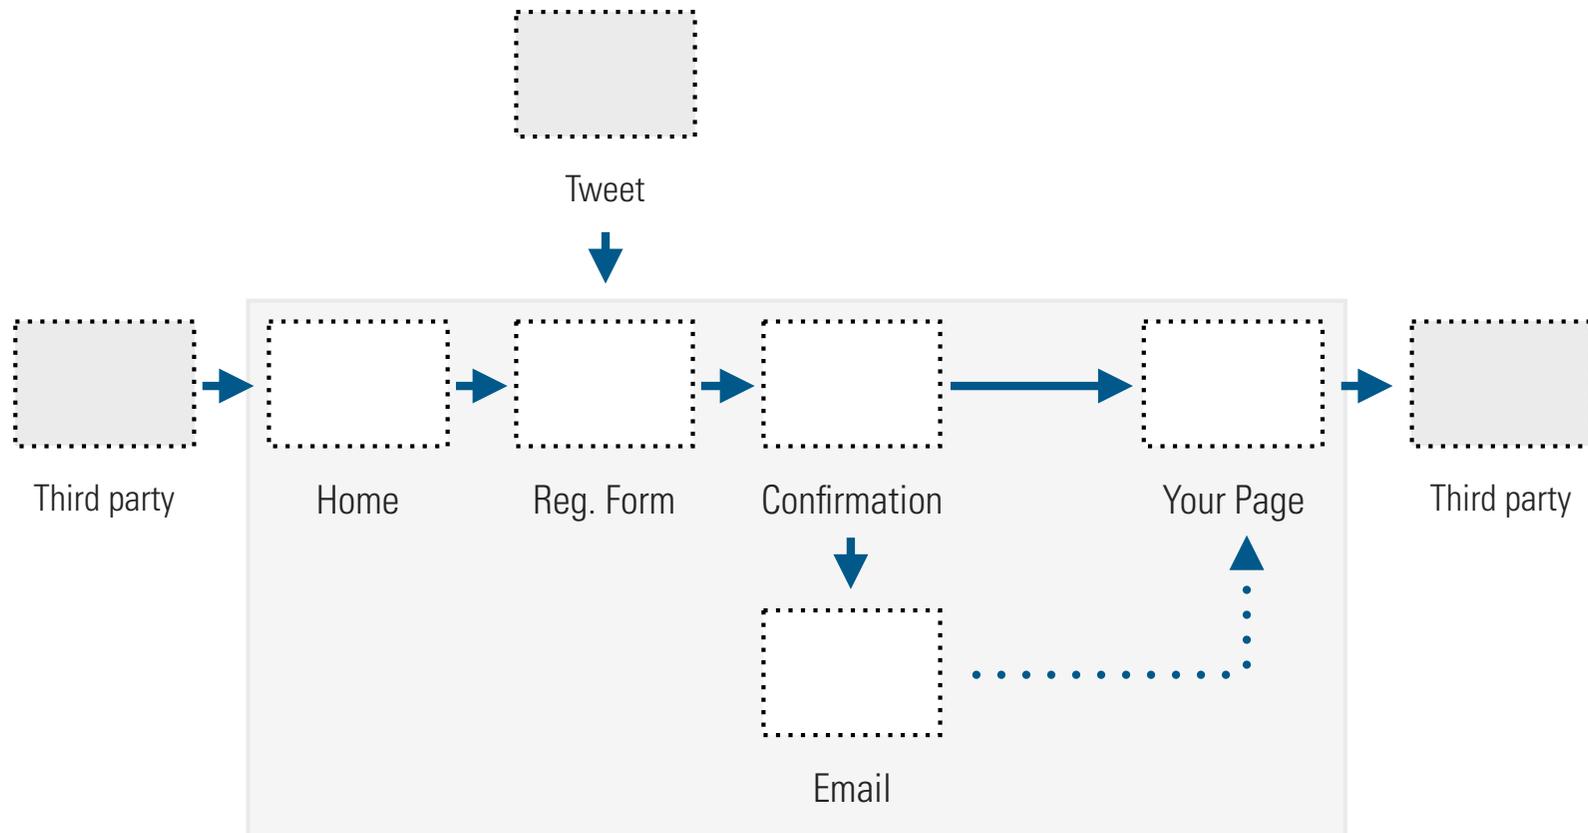

LOGIN PROCESS

Review journeys for the edge cases: errors, problems, etc

LOGIN PROCESS

The story is even bigger in reality

Let's Wirify!

www.wirify.com

Now let's wireframe!

Simplest: wireframe.cc

Also recommended:

The logo for moqups, featuring the word "moqups" in a white, lowercase, sans-serif font on a blue rectangular background.

Other options:

The logo for MockFlow, featuring a yellow circle with a black arrow pointing right, followed by the text "MockFlow" in a bold, black, sans-serif font on a white background.The logo for axure, featuring the word "axure" in a lowercase, sans-serif font where the 'x' is multi-colored (red, green, blue, yellow), on a white background.The logo for inVISION, featuring the word "inVISION" in a lowercase, sans-serif font where "in" is white and "VISION" is black, on a dark grey background.The logo for Cacoo, featuring the word "Cacoo" in a white, rounded, lowercase font on a blue background with a sunburst pattern.The logo for gliffy, featuring a white diamond shape with an arrow pointing up and to the right, followed by the word "gliffy" in a lowercase, sans-serif font on a blue background.

Assignment #1

Wireframe your final

Take the elements of your final, and lay the out in a wireframe. Label all the elements (text, headline, images, audio slideshow, web element, etc).

Post a link to your wireframe in the comments of the blog.

Deadline: Thursday, Nov. 10 at 12 noon

Assignment #2

Keep Reporting

Complete AT LEAST two interviews
for your final project.

Email me the name and contact info
of your interview subjects.

Deadline: Thursday, Nov. 10 at 12 noon
